MD RUHUL AMIN

CURRICULUM VITAE (履歴書) · Updated 28 October 2026

1. Personal Information (基本情報)

Name (氏名)	MD RUHUL AMIN
Date of Birth (生年月日)	2 March 1998
Marital Status (配偶者)	Married
Religion (宗教)	Islam
Email (メール)	mdruhul68@gmail.com
Phone (電話番号)	+81 80-6950-7426
Current Location	Kyoto, Japan
Mailing Address (現住所)	Pare Shugakuin 10, Yamabata Kawaramachi 20-10, Sakyo-ku, Kyoto, Japan
Permanent Address (本籍地)	Vill: Bondebaher Char, P.O: Jibangonj bazar, Nabinagar, Brahmanbaria, Bangladesh

2. Educational Background (学歴)

• 2013: SSC/Dakhil (Science), Jamea-E-Kasemia Kamil Madrasah, Narsingdi — GPA 4.88/5.

• 2015: HSC (Humanities), BAF Shaheen College, Dhaka — GPA 4.00/5.

• 2020: Bachelor of Arts (Bangla), University of Dhaka — CGPA 2.71/4.

• May 2025–Present: Master of Information Technology, Kyoto College of Graduate Studies for Informatics (KCGI), Network Administration; Student ID M25W0668; **CGPA 3.47 after the third semester**; expected graduation March 2027.

3. Employment History (職歴)

• December 2019–March 2023 — Sub-Editor, Bangladesh Times: edited and refined news articles, wrote video scripts, and managed social-media publishing.

• August 2023–April 2025 — Staff Correspondent, Barta24: covered political, administrative, transportation and election affairs and produced investigative reports. Relocated to Japan in May 2025 for graduate study.

4. Academic Research & Projects (研究実績)

• **Master Project 4 — ongoing and unpublished:** *Proactive Network Defence: A Lightweight Machine Learning System Using the NSL-KDD Dataset*. Compares five classical models (Logistic Regression, LDA, Decision Tree, Random Forest, XGBoost) under the official KDDTest+ distribution shift; preliminary results support false-positive-first model selection (Random Forest at 1.84% FPR in binary) and expose severe rare-class recall limits (about 4% of R2L; 0 of 67 U2R). Supervised by Prof. Sameera Abar. Draft dated 20 July 2025.

• SME Cybersecurity Research (July 2025): presented “Cyber Security Support to SMEs in the UK” at KCGI.

• Email Spam Detection Classifier (January 2026): Multinomial Naive Bayes classifier with live demo, supervised by Prof. Kostak.

5. Technical & Professional Skills (資格・スキル)

• **Networking & security:** Cisco Packet Tracer, network design, intrusion-detection evaluation.

• **Ubuntu Server:** production-host administration with Nginx, SSH hardening, UFW, Fail2ban, Certbot (Let’s Encrypt), PM2, and systemd.

• **Google Cloud:** service accounts; Drive API, Search Console API, and Analytics Data API (GA4).

• **Infrastructure automation:** Docker (Compose and Swarm), Ansible, and Cloudflare DNS and TLS.

• **Machine learning:** Python, Scikit-Learn, XGBoost; binary and multi-class classification.

• **AI-assisted development:** GitHub Copilot Premium, ChatGPT Plus, Claude Pro.

6. Certifications & Training (資格・研修)

• In preparation: CCNA (Cisco Certified Network Associate) and CompTIA Security+ examinations (not yet held).

• Computer Hardware and Networking — DIPTI: six-month training, 2023.

• Digital Marketing NSDA-4 — NACTAR: six-month training, 2022.

• Basic Journalism — Press Institute Bangladesh: three-month online certificate.

• Foundation Training on Journalism — Press Institute Bangladesh: three-day training.

7. Language Proficiency (語学力)

• **Bengali:** Native.

• **English:** Professional working proficiency in reading, writing, listening and speaking.

• **Japanese:** Daily conversational ability (speaking and listening). No formal Japanese language examination (JLPT or equivalent) has been taken.

8. Research Objective (研究目的)

I am seeking an **April 2027** research-student (研究生) placement in network and cybersecurity, immediately after completing my master's degree in March 2027. After one year of research-student work I intend to proceed to a doctoral programme at the same laboratory (about **April 2028**), ideally through the university-recommended MEXT route, and to contribute to resilient digital infrastructure linking Japan and South Asia, including Bangladesh.

9. References (推薦者)

• Academic references: available upon request from the Kyoto College of Graduate Studies for Informatics.
